ABOUT OUR COMPANY

Luthur Corp was founded and is directed by Faith Mdluli. As an experienced executive with a deep-rooted background in engineering, public sector leadership, and project governance, Mdluli drives the firm's strategic direction. Under this leadership, Luthur Corp uniquely combines technical depth with strategic insight, helping our clients turn complex, visionary plans into practical, sustainable outcomes.

Luthur Corp is a premier consulting firm providing integrated engineering, project management, business consulting, and professional skills development services. We work seamlessly across both the public and private sectors, offering specialised expertise and a proven track record in:

- Infrastructure Development: Delivering high-quality planning, design, and structural solutions.
- Governance Support: Strengthening institutional framework and ensuring compliance.
- Project, Portfolio & Programme Management: Ensuring disciplined execution from initiation to close-out.
- Organisational Improvement: Enhancing strategy execution and public accountability.
- Project Management Training: Professionalising workforces and preparing teams for global certifications.

"At Luthur Corp, we don't just build infrastructure or optimise processes—we secure future capacity. True excellence lies in turning complex blueprints into sustainable, real-world assets that empower communities and strengthen institutions for generations to come."

VISION

To be a trusted global leader in engineering, project management, business consulting, and professional training, known for turning plans into lasting assets and building institutions that deliver with excellence.

MISSION

To deliver credible engineering, project, and business solutions with integrity, wisdom, and excellence, strengthening institutions and creating lasting value for clients and communities.

VALUES

Integrity | Excellence | Stewardship | Wisdom | Service | Reliability | Impact

QUANTITY SURVEYOR

Philani Ngwazi is a registered Professional Quantity Surveyor (Pr. QS) with over 15 years of industry experience

CONSTRUCTION HEALTH & SAFETY AGENT

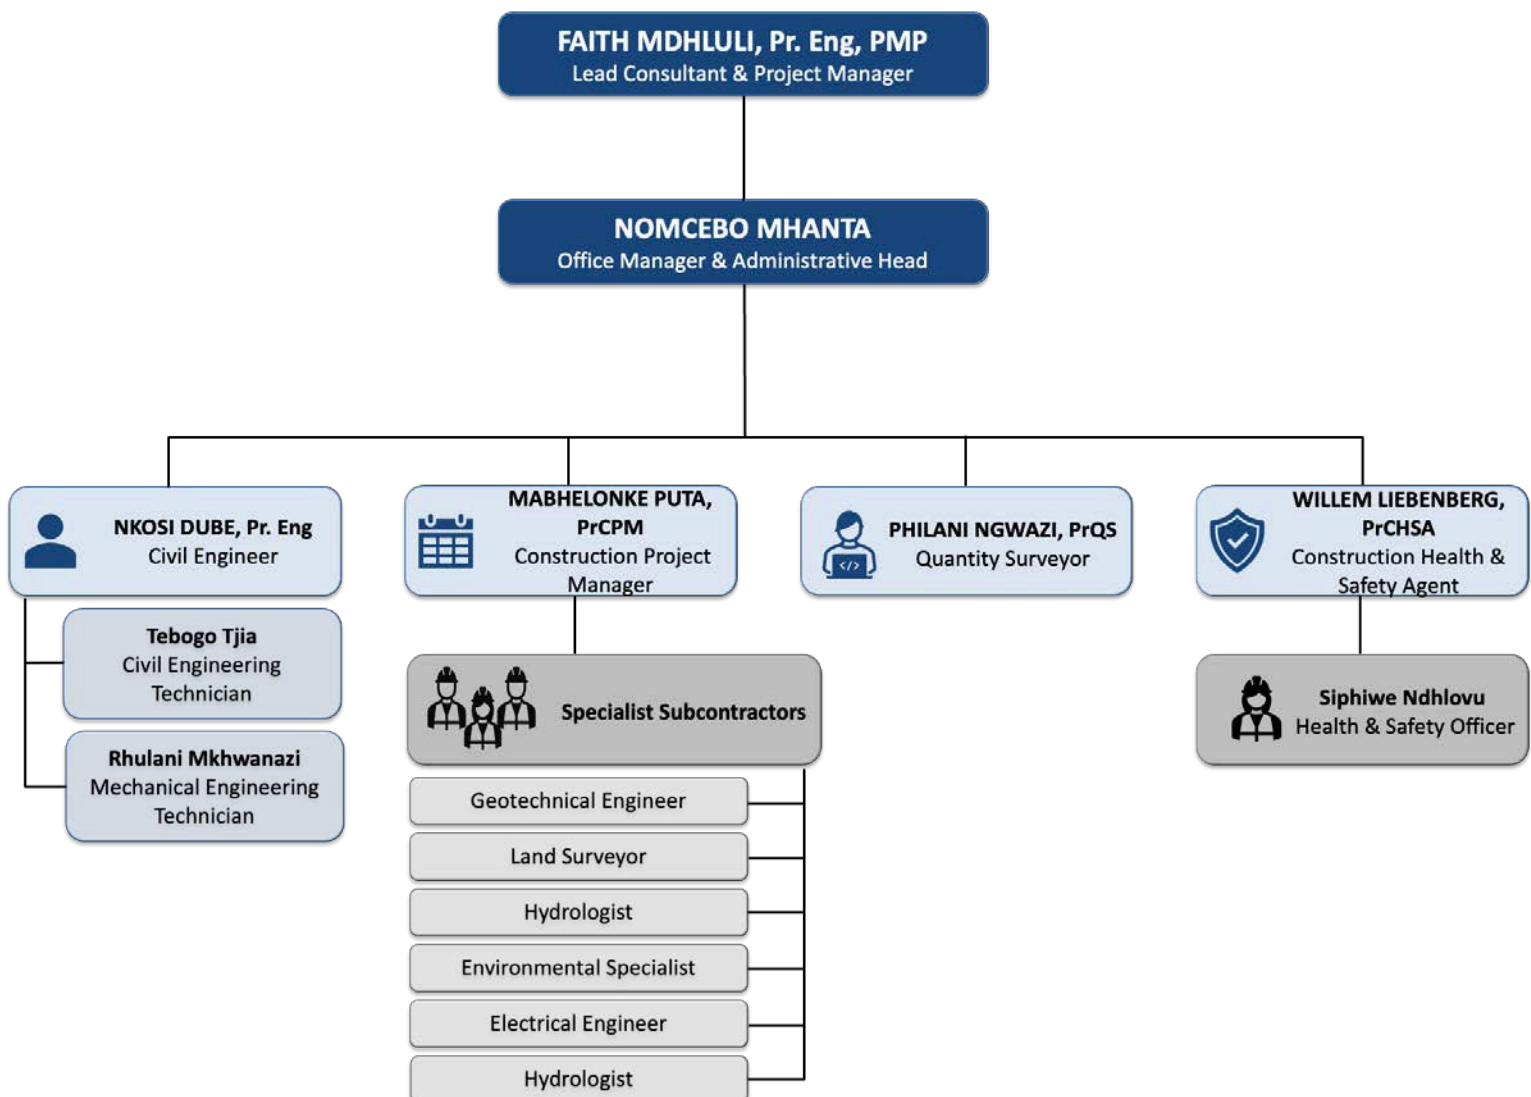

Willem Leibenberg is a registered Professional Construction Health & Safety Agent (Pr. CHSA) with over 30 years of industry experience

CIVIL ENGINEER

Nkosi Dube is a registered Professional Engineer (Pr. Eng) with over 15 years of industry experience

ORGANOGRAM

SERVICES

ENGINEERING SERVICES

From conceptual design to structural integrity, our engineering team delivers precision-engineered solutions. We specialise in civil, mechanical, and electrical systems, utilising advanced modelling to ensure safety and sustainability.

- Infrastructure planning and engineering studies
- Feasibility studies and technical assessments
- Engineering investigations and condition assessments
- Concept and preliminary engineering design
- Detailed engineering design
- Design reviews and optimisation
- Water resources engineering
- Dam engineering and rehabilitation
- Civil engineering
- Agricultural infrastructure engineering
- Rural infrastructure development
- Engineering project implementation support
- Construction monitoring and technical oversight
- Infrastructure condition assessments
- Asset management and lifecycle planning
- Engineering due diligence assessments
- Environmental and sustainability considerations in infrastructure development

SERVICES

PROJECT MANAGEMENT

Execution is everything. Our certified project managers utilize industry-leading methodologies (Agile, Lean, and PMBOK) to ensure your projects are delivered on time, within scope, and on budget

- Project management
- Construction project management
- Programme management
- Portfolio management
- Project Management Office (PMO) establishment and support
- Contract administration and management
- Procurement support and coordination
- Construction monitoring and supervision
- Schedule planning and control
- Cost management and project controls
- Risk management
- Quality management
- Stakeholder engagement and coordination
- Governance and reporting systems
- Project recovery and turnaround interventions
- Commissioning and close-out management
- Benefits realisation management

SERVICES

TRAINING & CAPACITY DEVELOPMENT

Build your internal capacity with our bespoke training programs. We equip your team with the tools, software proficiency, and leadership skills necessary to manage high-stakes projects independently.

- Project management training
- Construction project management training
- Engineering project management training
- PMO training and implementation support
- Infrastructure governance training
- Risk management training
- Project controls and reporting training
- Contract management training
- Monitoring and evaluation training
- Leadership and management development
- Mentoring and coaching programmes
- Organisational capacity building
- Technical skills development workshops
- Professional development programmes

SERVICES

BUSINESS CONSULTING

Navigate market complexities with confidence. We provide data-driven strategies to optimise your organisational structure, improve operational efficiency, and identify new avenues for revenue growth.
